Answers to received questions.

Except as provided herein, all terms and conditions of the referenced document in Item 9A or 10A, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER (Type or print)		16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print) Darren Odegard: Contracting Officer	
15B. CONTRACTOR/OFFEROR	15C. DATE SIGNED	BY _____	16C. DATE SIGNED
(Signature of person authorized to sign)		(Signature of Contracting Officer)	

Q. After viewing site and discussing conditions with airport manager there seems to be complications with some types of equipment being used such that would be ok for use at this VOR site. Please advise whether the following pieces of equipment would be acceptable for use while VOR is still in operation?

- ☐ Takeuchi 150 Skid Steer
- ☐ Case JX70 Farm Tractor with 7' tow behind brush-hog mower
- ☐ 75 HP John Deere Farm Tractor with Bucket

A: The equipment listed is okay to use near the VOR as long as it is in motion. Static storage such as overnight, of vehicles and tractor type equipment must be 1000 ft away from the VOR.

Q. Also, please advise on required tractor operator rate of pay for above equipment?

A: Service Contract Act rates apply.

Q. Due to the varying terrain we are unsure how much work will be able to be done with smaller type machines as suggested above. We are therefore looking at the possibilities of using manual labor to cut-down grass, shrubs, and small trees using commercial type weed-eaters with blades and chainsaws. Will this be acceptable, and please advise on wage requirements for manual labor? Also, please advise if certified payroll shall be required?

A: Manual cutting of trees and vegetation is preferred to the use of the large equipment.

Q. Will there be allowable deviation from specified scope of work? Due to the conditions of site, and the scope of work requested, we ask if it acceptable to cut down vegetation in the 1000' radius of VOR, but not chip or further compact? Thus avoiding bringing in larger equipment, such as bull-dozer or excavator, which might warrant suspending operation of VOR. Please Advise?

A: The requirement to chip the material has been struck from the statement of work. See revised SOW.

Q. Should there be complications due to weather or natural pahoehoe type lava flow terrain, will there be allowable time extension?

A: Reasonable time extensions can be negotiated.

Q. What shall be payment terms and progress payments?

A: The period of performance for this contract is set at 30 calendar days, and shall be invoiced at the conclusion.
